About Conference

The International Conference on Emerging trends in Applied Science, Management, and Technology (ICEAMT2025) is a prestigious global event that serves as a dynamic platform for scholars, industry leaders, academics, and professionals to come together and share their insights, innovations, and research findings across three interconnected domains. This conference is designed to promote interdisciplinary collaboration, encourage the exchange of ideas, and explore emerging trends that shape the future of science, business, and technology. ICEAMT 2025 is more than just an academic gathering—it is a catalyst for innovation, a forum for dialogue, and a bridge between research and practical application. It plays a vital role in shaping the global knowledge economy and addressing the complex challenges of the modern world

About College

The Adi Shankara Institute of Engineering & Technology was established in Kalady with the aim of providing value-added technical education that fosters professional excellence and ethical values in students. The institution is managed by the Adi Sankara Trust, a registered organization renowned in the field of education, under the blessings of His Holiness Jagadguru Sri Sri Bharati Tirtha Mahasannidhanam and His Holiness Jagadguru Sri Sri Vidhushekhara Bharati Sannidhanam of Dakshinamnaya Sri Sharada Peetham, Sringeri. For over 50 years, the trust has successfully operated various educational institutions. The institute is committed to maintaining a proactive approach to ensure the holistic development of its students. The college, which was founded in 2001 and skilfully maintained by the Sringeri Mutt with the benign blessings of His Holiness Sri Sri Bharathi Tirtha Mahaswamiji, is committed to maintaining a proactive approach to ensure the student's holistic development.

About Departments

The Basic Science and Humanities Department forms the foundation of all engineering fields by equipping students with essential scientific knowledge and critical thinking skills. With over 20 expert faculty members specializing in Mathematics, Physics, Chemistry, Economics, and English, the department promotes holistic growth. Active student engagement thrives through the Science and Mathematics Clubs, alongside vibrant extracurricular activities such as arts, cultural events, debates, and group discussions that nurture individual talents.

Established in 2004, the Department of Management Studies offers courses in Operations, Marketing, Finance, and Human Resources. Guided by nine experienced faculty members with strong industry and research backgrounds, the department emphasizes practical learning in business essentials like time management, stress management, and team dynamics.

Launched in 2023, the Department of Computer Applications offers the Master of Computer Applications (MCA) program with industry-aligned certifications spanning programming (Python, Java, C), SQL/DBMS, cybersecurity, full-stack and front-end development, Android app creation, data analytics with Power BI, cloud infrastructure, system/network administration, and IoT. Supported by faculty with an average of 17 years of teaching, research, and industry expertise, the program prepares graduates to excel in today's dynamic tech landscape
